# Why Lipo MIC?

- Increase Energy • Improve Mood • Reduce Stress • Boost Immune System

**Helps you metabolize and burn fat. This can be an important addition to any exercise and weight loss program.**

- **Methionine:** is one of the sulfur-containing amino acids. It acts as a lipotropic agent to prevent excess fat buildup in the liver and fatty deposits in the blood vessels which can cause coronary artery disease. **Patients with a sulpha allergy should not take this injection.**
  - **Inositol:** a nutrient belonging to the B vitamin complex is closely associated with choline. It aides in the metabolism of fats and helps reduce **blood cholesterol.** It also participates in the action of serotonin.
  - **Choline:** supports the health of the liver in its processing and excretion of chemical waste products in the body. It is required for the transport and metabolism of fats and cholesterol within the body, which is important for the healthy support of the endocrine, cardiovascular and hepatic system.
